*Re: Petition for Extension of Video Game Software Class Waiver of Commission's
Rules for Access to Advanced Communications Services (ACS) and Equipment by
People with Disabilities; CG Docket No. 10-213*

Dear Ms. Dortch:

On December 12, 2016, Michael Warnecke and Delara Derakhshani of the Entertainment Software Association ("ESA"), and Scott Harris and Rob Carter on behalf of ESA, met with Karen Peltz Strauss, Suzy Rosen Singleton, Eliot Greenwald, Rosaline Crawford, and Will Schell of the Consumer and Governmental Affairs Bureau regarding ESA's petition for extension of the current class waiver of the Advanced Communications Services ("ACS") rules for video game software.

During this meeting, ESA observed that its petition satisfies the ACS waiver requirements, and that a 12-month extension of the current waiver would serve the public interest.¹ ESA also briefly described the compliance and outreach plans set forth in ESA's reply comments.²

Pursuant to the Commission's rules, a copy of this notice is being filed electronically in the above-referenced docket. If you require any additional information please contact the undersigned.

Sincerely,

Scott Blake Harris

Counsel to the Entertainment Software Association
